Nextgen, Inc. LA-6000 Now Rated "Avaya Compliant"

- *LA-6000 Voice Logger is compatible with key Avaya unified communications solutions.*
- *Helps businesses like financial companies and government offices record, store and manage call data.*

Minato-ku, Tokyo – September 4th, 2018 — Nextgen, Inc., a leading supplier of SIP and VoIP systems, today announced that its LA-6000 is compliant with key unified communications solutions from Avaya, a global leader in digital communications software, services and devices for businesses of all sizes.

The LA-6000 voice logger helps businesses collect and store VoIP call data and recordings. The solution captures real-time calling party numbers, extensions, and Agent IDs, and includes advanced search capabilities to help businesses easily and cost-effectively manage recorded data. The application is now compliance-tested by Avaya for compatibility with Avaya Aura® Application Enablement Services 7.1 and Avaya Aura Communication Manager 7.1 via TSAPI.

Nextgen, Inc. is a Technology Partner in the Avaya DevConnect program—an initiative to develop, market and sell innovative third-party products that interoperate with Avaya technology and extend the value of a company's investment in its network.

As a Technology Partner, Nextgen, Inc. is eligible to submit products for compliance testing by the Avaya Solution Interoperability and Test Lab. There, a team of Avaya engineers develops a comprehensive test plan for each application to verify whether it is

Avaya compatible. Doing so enables businesses to confidently add best-in-class capabilities to their network without having to replace their existing infrastructure—speeding deployment of new applications and reducing both network complexity and implementation costs.

Quotes:

"We are excited to successfully complete compliance testing with the Avaya Aura Platform. With this testing, our customers can be confident that the LA-6000 voice logger will securely and seamlessly interoperate with their Avaya platform."

Naofumi Yamaya, solution producer, Nextgen

"Technology Partners like Nextgen understand the importance customers place on DevConnect compliance testing. The LA-6000 voice logger soft switch enables customers using the Avaya Aura Platform to accurately capture and manage real-time call data, helping improve customer service and call center performance."
-- Eric Rossman, vice president, Partnerships and Alliances, Avaya
